

# NORTHERN STONE SUPPLY, INC.

CORPORATE SUSTAINABILITY REPORT - QUARRY

## ENERGY

Northern Stone Supply has committed to the goal of reducing energy consumption (kWh) per ton of stone produced by 5% over a period of five years. This will be accomplished by reducing idle times, replacing outmoded equipment, upgrading inefficient lighting, consolidating tasks using machinery.

2018 CARBON FOOTPRINT

315 Tons CO<sub>2</sub>-e

## WASTE

**Excess Process Materials** Northern Stone Supply is committed to the goal of purposing all material that is mined from its quarries and maintaining a 100% reclamation rate of all quarry EPM's through all future operations.

**Solid Waste** Northern Stone Supply currently recycles all solid waste from quarry operations, and maintains the goal of a 100% recycle rate from quarry operations.
